# Introduction

## Welcome to Metz !

Metz is a city in northeast France located at the confluence of the Moselle and the Seille rivers. Metz is the prefecture of the Moselle department and the seat of the parliament of the Great East region. Located near the tripoint along the junction of France, Germany, and Luxembourg, the city forms a central place of the European Greater Region and the SaarLorLux euroregion.

Metz has a rich 3,000-year-history, having variously been a Celtic oppidum, an important Gallo-Roman city, the Merovingian capital of the Austrasia kingdom, the birthplace of the Carolingian dynasty, a cradle of the Gregorian chant, and one of the oldest republics in Europe. The city has been steeped in Romance culture, but has been strongly influenced by Germanic culture due to its location and history.

Because of its historical, cultural, and architectural background, Metz has been submitted on France's UNESCO World Heritage Tentative List. The city features noteworthy buildings such as the Gothic Saint-Stephen Cathedral with its largest expanse of stained-glass windows in the world, the Basilica of Saint-Pierre-aux-Nonnains being the oldest church in France, its Imperial Station Palace displaying the apartment of the German Kaiser, or its Opera House, the oldest one working in France. Metz is home to some world-class venues including the Arsenal Concert Hall and the Centre Pompidou-Metz museum.

A basin of urban ecology, Metz gained its nickname of The Green City (French: La Ville Verte), as it has extensive open grounds and public gardens. The historic city centre is one of the largest commercial pedestrian areas in France.

A historic garrison town, Metz is the economic heart of the Lorraine region, specialising in information technology and automotive industries. Metz is home to the University of Lorraine and a centre for applied research and development in the materials sector, notably in metallurgy and metallography, the heritage of the Lorraine region's past in the iron and steel industry.

## Cathédrale Saint Etienne

### Cathédrale Saint Étienne

Place Jean Paul II  
57000 METZ  
+33 3 87 75 54 61

Built between 1220 and 1552, it is the product of the unification of two distinct churches. With its 42 metre high vaults, it is one of the highest Gothic edifices in Europe. With its 6,500 m<sup>2</sup> of stained glass windows, the nickname "God's lantern" is well deserved.

There are windows from the 13th to the 20th centuries by Hermann de Münster, Thiebault de Lixheim,

Valentin Bousch, Jacques Villon and Marc Chagall.

These masterpieces of the art of fire and light form a veritable encyclopaedia of the art of stained glass.

Conceptualized by the architects Shigeru Ban and Jean de Gastines, there are three exhibition spaces covered by an audacious roof inspired by a Chinese hat.

The 77 metre high spire, is a nod towards the year 1977, the year the Pompidou Centre in Paris opened. The Centre Pompidou-Metz hosts the best of modern and contemporary art.

At the moment of the event, you'll be able to see an exhibition about **Fernand Léger's work**, and another on the **garden's theme**.

2 rue du Haut Poirier

57000 METZ

+33 3 87 20 13 20

5€/pers. from 09:00 to 17:00

The Cour d'Or Museum takes its name from the palace of the Austrasian kings who lived in Metz at the time.

The Gallo-Roman collections are amongst the most important in France: Roman baths are conserved in situ, the Merten column, and an alter dedicated to Mithra are among the highlights.

A warren of rooms and passages lead to the Chèvremont granary (15th century) with vaulted ceilings (13th century) and the chancel from St Pierre aux Nonnains, reputed to be one of the most beautiful works of sculpture from Merovingian Europe (7th century).

The fine art gallery includes works by Monsù Desiderio (17th century) and those of the Metz School (19th century).

## Opéra-Théâtre

### Opéra Théâtre

Opéra de Metz Métropole

4-5 Place de la Comédie

57000 METZ

03 87 31 32 37

The front of the theatre was decorated later with some sculptures of the french sculptor Charles Pêtre, "Les allégories du théâtre".

All along its history, a lot of companies and artists played there, like Sarah Bernhardt en 1905 or Jean Cocteau in the 60's. Moreover, it is the oldest theatre still in use in France today .

The construction of an "Hotel des spectacles" began in 1732, but work was spread over a twenty years period (because of wars essentially) and it was finally inaugurated in 1752.

The building was erected in a classical style, with a huge Tuscan influence.

It's the first modern place of Metz, decided by the Duke of Belle-Isle - the city governor - who wanted to create a new urban planning, with large and luminous places.

## Place Saint Louis

### Place Saint-Louis

Place Saint-Louis  
57000 METZ

The place Saint-Louis was created in the 14th century. Originally, it was an area that was crossed by the Seille river and occupied by money-changers.

The Mediterranean atmosphere of the place Saint-Louis is evident in the alignment of the houses, attached to one another.

This unique appearance is reminiscent of the squares and public monuments of the Italian Republics and its aspect is very similar to Siena.

## Cloister of the Recollets

### Cloister of the recollets

1 rue des Récollets  
57000 METZ

Founded by monks of the Ordre des Cordeliers, this cloister has been built between the XIIIth and XIVth century.

As a particularity, the galleries aren't arched- even if we speak about gothic style- but ceiled with woods like in the civilian architecture. These cloisters are remarkable in their elegance and simplicity.

Nowadays, it hosts the European Institute of Ecology and the city archives.

The garden, containing simple plants with medicinal properties, has been restored, making this place a little haven of serenity in the heart of the city.

## Germans Gate

### Germans Gate

Boulevard Maginot  
57000 METZ

This is in the same time the door of the fortified city and a bridge over the river Seille.

The Germans gate is named after the Teutonic Knights, hospitaller brothers of Notre Dame des Allemands, who founded a hospital nearby in the 13th century. It's been originally built in 1230, but some towers were added in the fifteenth century, and new fortification came in the sixteenth.

It's the most important relic of the medieval city walls and is the only witness of the evolution of the medieval military architecture.

## Parks and Gardens

Metz has more than 580 acres of parkland, nearly 45 m<sup>2</sup> per capita. It is therefore one of the greenest cities in France. It is a real pleasure to walk through the many parks and gardens dotted about the city.

More than a bar, a large gaming room, an open space, conducive to meetings and exchange. Wide choice of beers (pressure, bottle), wines, soft drinks, cocktails ... hot and cold drinks

It is a very nice bar which has been installed in the rue des Ponts des Morts. The service is at the bar for sometimes confusing prices, 2 € a pint, or the baron as they say in Metz, in happy hours. From 6pm to 9pm, it is natural that guests benefit from these attractive prices and invade the premises, the terrace, the bar room, and the vaulted cellar. It is possible to taste delicious charcuterie boards for a very reasonable price. The furniture made of bricks and pitcher dives us into a universe very student and resourceful.

It is in this spirit that are organized retro gaming evenings include video games on consoles over ten years of age. To test !
